

I have just received notice that the FCC may take away my KLOVE signal. I would like to say that this is a shame. KLOVE has been very important not just to my family but to the entire Christian community. KLOVE keeps us informed as to community activities as well as playing music that my entire family can listen to. As a parent I do not have to worry about what my children are hearing on the radio. If KLOVE were to be taken away it would be devastating to this community. Where could we listen to this type of music and here God's work and word? I hope that the FCC will not expand the LPFM and let us have our KLOVE.

Thank you,
Gina Cassady
